

OVERVIEW OF EUROPEAN MATH CHALLENGE

**An eTwinning project
involving students from
Lebanon, Ukraine,
Poland and France...**

**A collaborative project
about problem creating
and solving...**

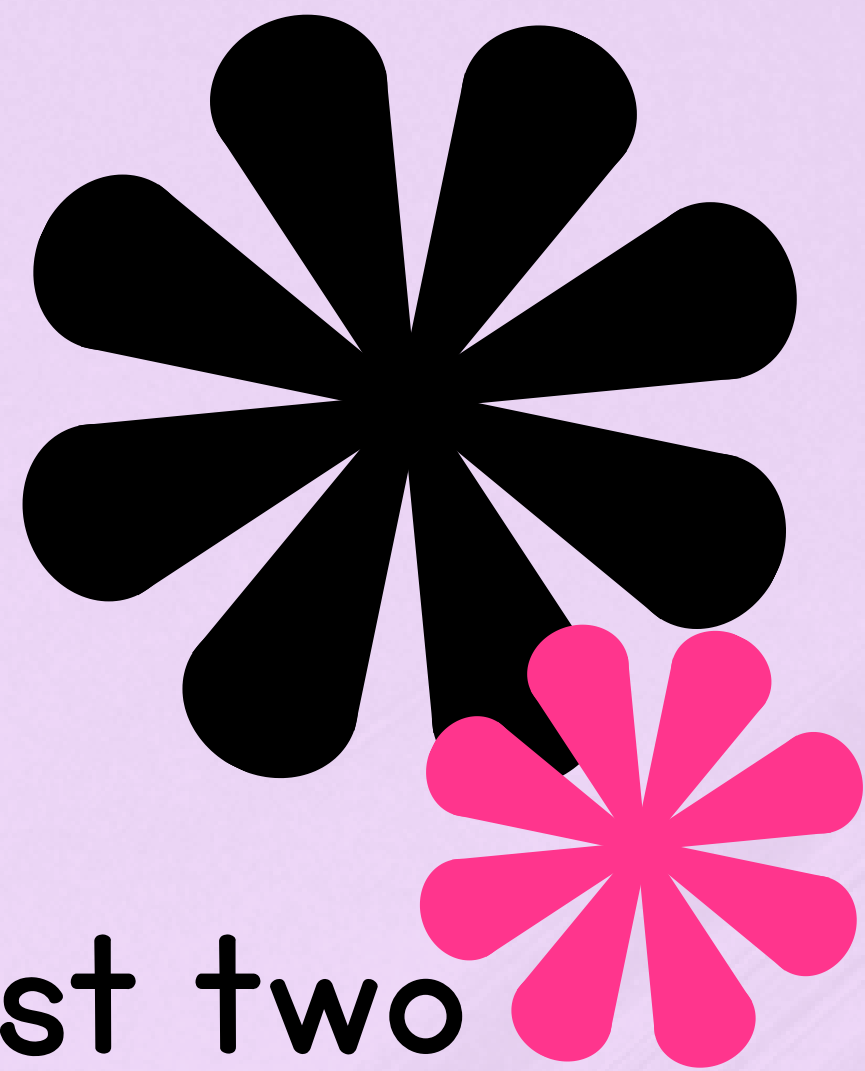

**During 3 weeks: 2 weeks to create and
solve problems (act, manipulate,
draw...) and 1 week for assessment (an
online game)**

**Pictures or videos of
students solving the
problems posted on
the Twinspace**

**At the end of the
project: a participant
certificate for each
student !**

Week 1

Samira and Béatrice will post two problems each created by their students on Tuesday, May 21st.

The students of Samira and Béatrice will have to solve 2 problems of the 4 problems posted as the students of Svitlana and Oksana.

Week 2

Svitlana and Oksana will post two problems each created by their students on Tuesday, May 28th.

The students of Samira and Béatrice will have to solve 2 problems of the 4 problems posted as the students of Svitlana and Oksana.

At the end of the two weeks, the students of the four classes involved will have created 2 problems and solved 4 problems.

-assessment: an online game created by Samira

-a template of participant certificate created by Béatrice
