

It's your turn to solve the problem...

The sporty pupils practise hip-hop.

The ticket for their show costs 82 pounds.

Questions: How many pounds for 2 people? How many pounds for 6 people? How many pounds for 12 people?

A word problem written by Anaïs, Sirine, Elisha, Loucas and Lubin in Year 5 (primary school Charles Exbrayat)

It's your turn to solve the problem...

Grandpa goes to a friend's house to celebrate Christmas. His friend lives in Paris and grandpa lives in Marseille.

Grandpa takes the plane: he leaves at 4.35 pm and arrives at 6.12 pm.

Question: How long does it take grandpa to arrive in Paris?

A word problem written by Maéli, Maylie, Chloé and Ivan in Year 6 (primary school Charles Exbrayat)
